Description

Heartbeat International has championed ultrasound trainings that connect the technical needs and the spiritual needs for those working in pregnancy help. The Bridge to LOVE Approach Scanning helps to introduce the seasoned imager to the LOVE Approach method to scanning while also fulfilling refresher guidelines. This course supports those who have completed other ultrasound training but are new to scanning in pregnancy help medical clinics or who would like to refine their skills. By combining the technical, practical, and spiritual elements into one medical training, healthcare professionals become equipped, qualified, and ready to scan effectively in order to provide information to clients and to introduce moms to their babies for the very first time.

CA BON provider approved by the California Board of Registered Nursing, Provider Number CEP 16061 for 10 contact hours.

FAQs

How many people can go through the training when I purchase a subscription?

To ensure proper tracking for record keeping purposes, a separate enrollment is needed for each individual completing the training. No shared enrollment is permitted. If available, no credit will be awarded to anyone other than the individual enrolled in the training.

What happens if I don't complete my training in six months?

Please see our official refund policy for more information.

Can I add the training to the private course for my center?

No, due to the nature of this training and to ensure that guidelines established by AWOHN and the California Board of Nursing are met, this training is not available for use in a private course. However, any nurse or sonographer interested in the training can take the course using the same login information they currently use to access your center's private course.
