Description

This workshop is all about how to get a seat at the table and how to have dinner conversation once you get there. Shawn will equip to either get a seat at the table with other NGOs, Public Health and Community Service Agencies or learn how to set the table yourself. You will also learn the best way to advance secular arguments against abortion, create space for nonreligious pro-lifers to do anti-abortion work with you, and help to build interfaith coalitions with people in your community who are interested in advancing secular arguments for life.
