Guarding Hearts

Brand: Heartbeat Academy
Product Code: 139

Price: $14.95

Short Description
This one hour recorded webinar will encourage you as you empower your clients to proactively.

Description

This webinar will provide practical ideas and resources about how to “make abortion unwanted today and unthinkable for future generations.”

While we may often think of life-affirming ministry as more of a shorter-term rescue operation, there are many things we can do to make a deeper, more lasting impact. We will consider specific ways to train people how to guard their hearts, which Solomon said to do above all else, through promoting true intimacy in relationships, including one's relationship with God; developing the mind, making use of both general and special revelation; and nourishing the imagination in God-honoring ways.
